Benefits of APT

- APT Bulletin (Publication)
- Communiqué (E-Newsletter)
- Discounts to APT Annual Conference & Publications
- Specialized Preservation Training & Education
- International Network
- Student Scholarships
- JSTOR – Search, Browse, Download & Print APT Bulletin Articles
- Listing In & Access to APT Membership Directory

APT Communiqué
Volume 45, Issue 3, September/October 2014

APPT Québec City 2014
October 18-19
Fairmount La Citadelle, Québec

Make the most of the APPT Québec City 2014 Conference experience by planning ahead!

Register, register before September 26, and you'll save \$50 from the onsite registration fee.

Pick your workshops, whether it is "Introduction," "Documentation," "Preservation Engineering," or a site "Guest Panel," the two-day, hands-on, in-depth workshops will provide you with instruction, insight, and inspirational trends in preservation. As an example, the workshop "Preservation of Fortifications" (FWSI) will be held in the officers' mess in the Québec Citadel, an active military base and an exceptional opportunity granted to APPT.

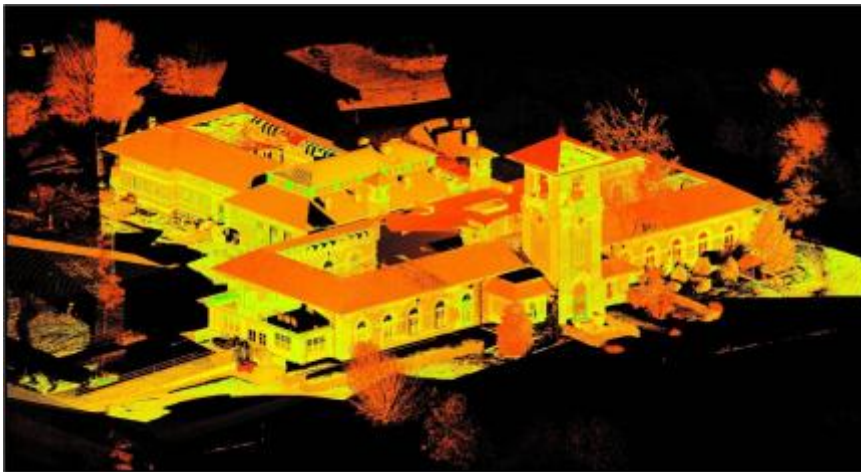

Make sure your field session is still available—more than half are already full! We have 15 field sessions this year, across and often between 2.0 and 6.0 CDEUs, and take you to the most architecturally significant places in the Québec City area, such as Grosjean St., St. François, the Cit. City, and the St. C. Charles (Bishop) in Lévis. In addition, you'll hear from local professionals involved with conservation strategies, preservation, restoration, and the cultural issues at these sites.

SAVE 100
DOLLARS

Technical Committees

- Modern Heritage
- Preservation Engineering
- Sustainable Preservation
- Documentation

Student Scholarships and Presentations
