2019 WCAPT BOARD OF DIRECTORS ELECTION

NOMINEE QUALIFICATION STATEMENT

Experience with WCAPT and other Preservation Organizations:

- WCAPT member and participation in local events
- Co-secretary of APT's TC SP since early 2019
- California Preservation Foundation (CPF) volunteer in office and at the annual conference. CPF Education Committee 2019-2020 fiscal year
- Member of AIA SF's Historic Resources Committee – helped plan historic pub crawl in 2018
- Internship at the Department of the Interior's National Park Service as a historic architecture intern, performing HABS documentation

Other Information:

Danielle Campbell is a Project Manager and Associate in Diagnostics group of Walter P Moore. She began her career in forensic architecture in 2011, specializing in building envelope consulting for both new construction and for historic preservation. While her expertise lies in building envelope assessment, testing, and repair of fenestration, roofing, and waterproofing systems, Danielle has guided a diversity of forensic projects from concept to completion. With significant experience in nondestructive testing, damage assessment and repair, as well as litigation and insurance support, she brings high-level skill and passion to every project or client conversation. Through her work, Danielle aims to highlight the intersection of sustainable technologies with historic preservation, ensuring past and future structures are safe and functional for generations to come

Vision Statement for WCAPT:

I would like to help WCAPT become more involved in the local preservation community, help organize and sponsor more events, and promote and expand membership in WCAPT. In doing so, we can increase our public outreach and presence and as a knowledgeable and technical resource. We can continue to partner with and expand our network of local agencies, communities, firms, and schools. There are different avenues to market ourselves to different groups and we should learn what those are and capitalize on them to make sure we are reaching everyone we can, including the general public, local preservationists, architects and engineers, and students. I would also like to help boost our student scholarship efforts by looking into more fundraising to create either a bigger scholarship total per student or reach more students, as well as figuring out how to promote the existence and availability of the funds for students, which could in turn bring in a larger student membership base to WCAPT. I'm excited to have this opportunity to join the board, and help with any initiatives that are on-going or are developed in the future.
